

## **Voleo Trades on OTCQB And Announces Top Colleges Participating in Equity Trading Competition Sponsored by Nasdaq**

**January 16, 2020**

**VANCOUVER, CANADA, Voleo Trading Systems Inc. (TRAD: TSX-V, VLEOF: OTC-QB)** (“Voleo”, the “**Company**”), is pleased to announce it now trades on the OTCQB under symbol VLEOF. The OTCQB® Venture Market is for early-stage and developing U.S. and international companies, and trading on the OTCQB is consistent with the Company’s strategy of attracting investors as users and vice versa.

Executive Chairman Mark Morabito elaborated, “Voleo is a growing broker-dealer and has always envisioned enabling investors in our company to participate as Voleo users. Equally, with a US trading market we are enabling users of our platform to participate as investors in Voleo’s future. Our team has been asked about this since Voleo’s soft-launch, and we have made it a reality.”

Voleo has seen an increase in the number and quality of participating colleges in Voleo’s equity trading competition sponsored by Nasdaq. This third edition features teams from Columbia, MIT, Yale, Wharton, Berkeley, University of Michigan, NYU, Cornell, Duke and dozens more. The competition wraps up in March 2020 and the winning team will be invited to Nasdaq’s Market Site in Times Square as well as receive a cash portfolio on Voleo’s social trading platform. Voleo is an ideal way for young investors to start preparing for their financial future, either among peers or with friends or family.

Concurrently, the Company is developing new responsive web app which is being optimised for white-label and facilitates integration into third party banking applications. The responsive platform, which is the biggest improvement to Voleo’s platform since the production apps were built in 2016, is slated to launch in the first quarter of 2020.

### **About Voleo Trading Systems Inc.**

Voleo is a mobile fintech company that is transforming the retail investing space through its powerful, collaborative investing platform. Voleo’s equity trading platform operates on native iOS and Android devices, as well as a companion web application. Voleo has increased retail investor participation in the stock market by breaking down barriers to entry, facilitating trust and improving financial literacy. The product is being white-labeled by financial institutions around the world as an innovative product to engage, retain and acquire retail customers.

**Cautionary Note Regarding Forward-Looking Information**

*Certain statements contained in this release constitute forward-looking statements and forward-looking information (collectively referred to herein as "forward-looking statements") within the meaning of applicable Canadian securities laws. Such forward-looking statements relate to future events or Voleo Trading Systems Inc's (the "Company") future performance and the integration of cryptocurrency trading. All statements other than statements of historical fact may be forward-looking statements. Such forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "budget", "plan", "continue", "estimate", "expect", "forecast", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar expressions. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Voleo believes the expectations reflected in those forward-looking statements are reasonable but no assurance can be given that these expectations will prove to be correct and such forward-looking statements included in this release should not be unduly relied upon. These forward-looking statements speak only as of the date of this release, or as of the date specified in the documents incorporated by reference into this release, as the case may be. In particular, this release contains forward-looking statements pertaining, but not limited to: expectations as to future operations of the Company, future market trends, growth opportunities, the Company's go to market strategy, future partnerships, new initiatives and innovations of the Company, product offerings, the expected operations and performance of the Company's business, expected user growth, and the timing of key development milestones.*

*With respect to forward-looking statements contained in this release, the Company has made assumptions regarding, among other things: the accuracy, reliability and applicability of the Company's business model; the timely receipt of governmental approvals, including the receipt of approval from regulators in Canada and the United States; the timely commencement of operations by the Company and the success of such operations; the ability of the Company to implement its business plan as intended; the legislative and regulatory environments of the jurisdictions where the Company will carry on business or have operations; the impact of competition; and the availability of financing to execute the business plan. The Company has included the above summary of assumptions and risks related to forward-looking statements provided in this release in order to provide investors with a more complete perspective on the Company's current and future operations and such information may not be appropriate for other purposes.*

*The live Voleo platform is currently limited to U.S. residents. Investors should be aware that investing through clubs requires that members of a club vote in accordance with the conditions of their respective partnership agreements, and that other factors including platform performance, execution price, order and account access times are affected by many factors, including connectivity, market volatility, the size and type of order(s), market conditions, system performance, and other factors. Investors should carefully consider the risk profile of ETFs before investing in them, and read the prospectus from the issuer before investing in an ETF. Penny stocks may trade infrequently, which means that it may be difficult to sell penny stock shares once you own them. Moreover, because it may be difficult to find quotations for certain penny stocks, they may be difficult, or even impossible, to accurately price. For these, and other reasons, penny stocks are generally considered speculative investments. Consequently, investors in penny stocks should be prepared for the possibility that they may lose their whole investment.*

*Readers are cautioned that the foregoing lists of factors are not exhaustive and it would be unreasonable to rely on any such forward-looking statements and information as creating any legal rights, that the statements and information are not guarantees and may involve known and unknown risks and uncertainties, and that actual results may differ (and may differ materially) and objectives and strategies may differ or change from those expressed or implied in the forward-looking statements or information as a result of various factors. The forward-looking statements contained in this release are expressly qualified by this cautionary statement. Except as required by applicable securities laws, the Company is not under any duty and do not undertake any obligation to publicly update or revise any forward-looking statements after the date of this release or to conform such statements to actual results or to changes in the Company's expectations and the Company disclaims any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or results or otherwise.*

*Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) has reviewed or accepts responsibility for the adequacy or accuracy of this release.*
